

# Cross Island Parkway (US 278) Toll Conversion Project

## Project Recap

This project on Cross Island Parkway (US 278) in Beaufort County, will remove the existing toll plaza, including toll canopy, booths, and excess pavement. In addition, the project will include pavement reconstruction of mainline cross Island Parkway and interchange ramps along with the roadway realignment between Marshland Road interchange and the bridge over Broad Creek.

## Interim Condition Phase Completed

The main line canopy demolition has been completed, along with the marshland entrance and exit ramps being demolished and removed. Also, the toll booth access tunnel has been cleared and filled. The final traffic pattern has been put into place, with the removal of the main line toll booth canopy and pavement reconstruction.
